SMARTER SPRAYING
FOR SMARTER **SPRAYERS**

WeedSeeker[®] 2

- Quick-disconnect brackets for easy removal
- Spot spray weeds and save on chemical usage by up to 90%
- ISOBUS compatible
- Weed mapping with sectional control

BOOM

- Steel construction, single truss design with twin chains
- Excellent boom stability, eliminates any yaw

RAVEN XRT (OPTIONAL)

- Latest auto-height control system
- Better height control maintains boom performance in all conditions

OVERALL LINE

- Full wet line conventional spraying with 9 sections
- Quick shot boom recirculation with Raven ISO rate and section control
- Tiered spray line (Optional)

PUMP

- Hydro pumps as standard to fill the tank, eliminating the need for a standalone fire fighter or transfer pump

2000L HOT MIX TANK - (OPTIONAL)

- For dual line work using WeedSeeker 2
- Ability to apply a higher rate or different chemistry through the WeedSeeker 2 line whilst still applying a light rate through the main line

WHEELS / AXLES

- Large, single tractor wheels for better flotation and lower ground compaction
- Heavy duty axle fitted as standard
- 3m axles (Optional)

SUSPENSION

- Heavy duty air bag suspension as standard

TRAILER

- Fully welded box section chassis
- Convenient extra storage, accessed by a fold-down ladder
- Adjustable tow hitch height with heavy-duty 50mm swivel eye tow
